Single Project Construction Services Agreement

Contract No. 6B Addendum 1

Dear Paul:

Enclosed is a document that we identified as Addendum 1, which we prepared in the course of our review of the contract that was presented to us most recently for our review.

Addendum 1 is provided for your review and inclusion in the referenced contract for execution.

The Addendum includes three columns. The first column is a number for reference only. The second column provides the contract location; this is for navigating the document to the appropriate place for the modification. The final column, Action:/Description of the Action is the modification contemplated.

The third column is prepared to reflect one operation for each reference number to keep it as simple as possible; two or even three reference items may be required to effect one complete change on the document. Most of the addendum volume is reference, navigation and action; the modifications are not voluminous.

The modifications presently reflect mostly the manner in which the project was conceived at bid time, the manner in which it was conducted to date, resolving inconsistencies or other issues worthy of modification.

We will be prepared to execute the contract upon your acceptance of Addendum 1 for inclusion.

Please contact us if you have any questions.

Fatricia Creedon,

Very truly yours,

Patricia Creedon

President
